

Alpha-27 Series Perkl-Light Experimental Settings 2/15/11

These experimental settings have been determined intuitively. You are invited to explore them, and to use them as an example of the kinds of things you can do with your Perkl-Light. You are encouraged to learn to find your own settings using the scanning technique or the blink technique (taught on the blue DVD), muscle-testing, pendulum, or your own intuition. These settings are experimental and should not be used as a substitute for proper medical care.

Just to be clear, the Perkl-Light is not a medical device. It is an experimental chi-generating device. When you tune it into a body part, a body system or process, or an aspect of your consciousness or energy field, you are directing chi toward that body part (etc.), for the purpose of raising its vibration. For example, a setting related to the pancreas is not intended to heal the pancreas in a medical sense, but rather, to send chi to it and thereby, raise its vibration. Spirit and your body will determine how to best utilize the chi, for your highest good.
